5. Said election shall be held, in all respects, as is required by law for hold ing regular primary elections, and a uniform ballot shall be used in every precinct; and the Chairman of this saloon keepers' behavior in Coos county:

> ounty, it is said, will not comply with the Prohibition order. It has now been lmost a year since the people of the county said by a good majority vote county said by a good majority vote that the saloons would have to go. Yet In the face of this they have been in operation through trifling technicali-ties. They should now be closed at and the officers should be com pelled to do their duty or get out. The time to argue the merits of Prohibition is past-the people have made known eir wishes. A handful of saloon men run the county. Men who openly defy the law are not good American citizens and should not be treated as such. They are anarchists pure and simple. If the wishes of the people are to be trampled under foot and no heed paid to their vote, then what is the use of going to the expense of holding elections? If this is to be, we have no county government, no laws; a few men will run things. The officers, though, if they are made of the proper stuff, will enforce the law. It doesn't make any difference what they think of Prohibition, They are in office to do their duty, and the people will expect them to do it. It is up to them." Even Oregonian Won't Stand For It.
